For Alpha Wolf's

**SCOTTIE SIMPSON
& SABIAN LYNCH**

finding equipment
that could elevate
their crushing
sound turned out to
be a difficult, if not
impossible task.

**"We go to music shops and turn
everything up full to see how
fucked up we can make it sound"**

-SCOTTIE

Unable to find the perfect
effect, the guitarists teamed
up with Tallon Electric to
forge their own holy grail
sound from scratch.

THE NOISE

is the only
octave effect that can
tear apart their tone in
just the right way.
